

VET Information Standard | Information Elements alignment to AVETMISS 8.0

AVETMISS alignment – Each Information Element has been classified as:

- **No change:** The information element remains unchanged with no updates made
- **Modified – classification change:** An existing information element that has been updated due to a change in its classification values
- **Modified – merge / split:** An existing information element that has been reorganised, either combined with another element or divided into more than one information element
- **Modified – major change:** An existing information element that has been significantly updated
- **New:** The data was not previously collected under AVETMISS 8.0 and is now a requirement under the VET Information Standard.
